

### **Participation Works**

The Regional Youth Work Unit has just signed an agreement with [Participation Works](#) to provide a programme of support to Voluntary & Community sector professionals working with young people to help develop and improve a culture of participation.

Funding for the work over the next 3 years has come from a central bid to the Big Lottery Fund and here in the South West it will help develop the Regional Participation Network for practitioners and also fund training events to share good practice and help develop skills.

For further information please contact Sharon Adams, Regional Youth Democracy Worker:
